("CustomVis" or "the Group")  
**Pulzar Z-1 Solid State Laser Sales Receipt**

CustomVis is pleased to announce the completion of the sale of a Pulzar Z-1 solid state laser into Korea.

A laser has been despatched to Saudi Arabia for trials. Subject to the results from initial treatments, the Group is anticipating finalising the sale of this laser during the period to 30<sup>th</sup> June 2005.

CustomVis is in advanced stages of negotiation for the delivery of additional lasers into Europe, South America and Asia. Lasers in Columbia and Norway are continuing to treat patients with very satisfactory results, and sales of these lasers are expected once the trials are complete.

The Group is continuing to prudently manage funds by reducing the cash burn rate. As part of this programme employee numbers have reduced from nearly 70 to approximately 50 whilst ensuring the key skills required by the group are retained.
