## **CustomVis plc**

### **Board Appointments**

The Board of CustomVis plc, which designs and markets customised surgical laser vision equipment, is pleased to announce the appointment of Dr Mukesh Jain as an Executive Director and Harry Sykes as a non-Executive Director, with immediate effect.

Dr Mukesh Jain has extensive experience in the laser eye surgery industry having worked at both Telco Medical Technologies in Perth and Nidek Co Ltd of Tokyo focusing on the development and sales of eye surgery technologies and products. He began his career as Senior Scientific Officer of the Indian Institute of Technology in 1984. Dr Jain, Executive Director, also takes up the role of General Manager in Perth, Western Australia.

Harry Sykes is an entrepreneur who has successfully started, run and sold 5 separate telecoms businesses over the last 15 years. He was involved in the development of National Telecom, Telecom Technology International, Opt-Tel Communications, Teleefficiency and Telecom Plus. He brings a broad spectrum of experience and diverse contacts in the development of new technology-focused companies to CustomVis.

There are no details to disclose in respect of paragraph 6.F.2 (b) to (g) of the Financial Services Authority's Listing Rules.

**Simon Gordon, Managing Director of CustomVis, said:**

"We are delighted to have two such highly experienced directors joining CustomVis. Their combined scientific and commercial experience will greatly assist us in achieving planned business objectives."
